YARG Community Enhancements

Get ready for easier access to the many resources available through the YARG Community and Workforce GPS. Your YARG team is at work collecting, reorganizing, and categorizing the articles, tools, webinars, and other TA that can help you build and implement your apprenticeship programs. We’ll be improving navigation, responding to the changing needs of YARG grantees, and ensuring that you can easily access the information most relevant to your programming questions.

You’ll find pages that address key areas, where we’ll group resources around a single topic. Already available are [Apprenticeship Resources by Industry](#), [Managing COVID-19](#), and [Employer Engagement](#).

Also up and running is the [Success Stories Page](#), where we share grantee-submitted success stories and provide you with a guide to creating your own.

We also added the [YARG Community Contents page](#), a roadmap of resources curated specifically for YARG grantees, so you can easily scan the types of material available and drill down from there. Upcoming topic pages will include Recruiting, Retention, Supportive Services, and more.

PEER-TO-PEER HIGHLIGHTS

Recruiting & Service Delivery During a Pandemic

This month’s Peer-to-Peer discussion focused on how to modify service delivery to meet the needs of participants in a rapidly evolving workforce landscape. Grantees shared challenges, resources, and promising practices.

For anyone who missed January’s Peer-to-Peer or who would simply like a reminder of what was discussed, we created a follow-up resource that we will email to all grantees. This solution sheet compiles highlights of our information-sharing session and includes some additional tips and references. You’ll find suggestions from fellow grantees and other experts on overcoming such pandemic-related challenges as:

- Finding effective incentives for recruiting and retaining opportunity youth.
- Making adjustments in employer partner relationships.
- Managing the transition from in-person to virtual engagements.

Look for this resource in your in-box soon and [here](#) on the YARG Community now!

[GET RESOURCE](#)
YARG grantees shouldn't miss this opportunity to learn details about YARG performance accountability, including the nine YARG indicators of performance and the WIOA core indicators.

YARG grantees should attend this event to increase their knowledge about performance accountability, the importance of their role, and what areas to focus on for performance reporting. Specifically, they will learn about all nine YARG-specific indicators of performance as well as the WIOA core indicators—how are they calculated and what they mean. Finally, grantees will learn how the performance pieces fit together—for instance, which indicators should receive the most focus and why.
