Reemployment Services and Eligibility Assessments (RESEA) Statement of Work

Purpose:
The Massachusetts Department of Unemployment Assistance and the MassHire Department of Career Services are soliciting proposals for the design and implementation of an external evaluation of the RESEA program. This statement of work describes the design for an impact evaluation of the RESEA program to assess the impact of RESEA program services on the number of weeks that claimants are receiving UI benefits and employment outcomes.

RESEA Program Background:
The Unemployment Insurance (UI) Program provides temporary financial assistance to eligible workers during periods of unemployment. MassHire Career Centers (MCCs), also known as American Job Centers (AJCs) ensures that RESEA participants comply with UI eligibility requirements and that they are made aware of the variety of available reemployment services.

The RESEA program is a statewide program which requires Permanently Separated Unemployment Insurance (UI) Claimants who are likely to exhaust benefits to receive specific employment services. On a weekly basis up to 2,000 claimants who have received their first benefit payment are selected for the Program via an extraction from UI Online which is the UI automated system. During the 2019 program year, 97,935 UI claimants completed RESEA.

The Career Center Seminar (CCS)/Initial RESEA is the introduction to the MassHire Career Center (MCC) system and is mandatory for RESEA enrollees. During the CCS claimants complete a Job Search Inventory/Initial Needs Assessment (JSI/INA) and begin to develop their Career Action Plan/Individual

PROJECT Rate or HOURLY Fixed Price

Reemployment Plan (CAP/IRP). Claimants are taught how to use Labor Market Information (LMI), economic trends and other available data to conduct a demand-driven work search and referred to reemployment services based on individual needs.

During the Initial RESEA, the Specialist and the claimant collaborate to further develop the CAP/IRP. The CAP identifies the mandatory goals for the RESEA program; registering on MA JobQuest, UI work search review and verification of requirements/eligibility, LMI, resume and ongoing appropriate reemployment services, including referrals to appropriate services that meet their needs. This individualized plan is a comprehensive, step-by-step plan establishing realistic goals to get from unemployment to employment. The claimant receives a RESEA Review appointment at the time they attend the CCS/Initial RESEA and is referred to an appropriate reemployment interim service. If they leave without scheduling the RESEA review appointment, they are contacted directly by Career Center staff to schedule. Please note that all MassHire Career Centers are currently providing remote services.

The RESEA Review is a one-on-one meeting with the MCC RESEA Specialist to assess their continued eligibility for UI benefits and to evaluate progress towards their CAP/IRP goals. The Review builds upon the services provided in the initial RESEA and addresses the needs of the claimant at this stage of their claim/job search. The CAP/IRP is reviewed and updated based on their needs. The focus is to help the claimant understand how the CAP/IRP goals and activities are interrelated to further the claimant’s progress towards employment.

Additional RESEA information can be found at:  
https://www.mass.gov/service-details/reemployment-services-and-eligibility-assessment- resea  
https://www.mass.gov/doc/initial-resea-online-ppt-presentation  
https://www.mass.gov/service-details/career-center-seminars-and-resea

During the 2021 RESEA program year claimants will be permitted to reschedule the RESEA Review for one week with good cause, and job referrals will be given at the Initial RESEA and RESEA Review when deemed appropriate by the RESEA Counselor.

Funding for the Evaluation is included in the RESEA Grant from the Department of Labor and will cross program years. The study may need to be extended if the sample size is not met due to the deployment of the revised RESEA profiling model that is currently being worked on and due to the pandemic.

The Program must utilize interventions with high or moderate causal evidence ratings as determined by the Clearinghouse for Labor Evaluation and Research (CLEAR) www.clear.dol.gov. The Evaluation and the Outcomes may be posted on the CLEAR website and may be viewed by other States and the public.

Objectives:
The objective of this evaluation is to assess the effects of RESEA services on the number of weeks that claimants are receiving UI benefits and employment outcomes. The evaluation should be designed to answer the following impact study research questions:

Are RESEA participants’ UI duration shorter than that of otherwise identical claimants who were not selected for RESEA?
Do RESEA participants have higher rates of employment in the second full quarter after the start of their UI claim, compared to the rates of employment for otherwise identical UI claimants who were not selected for RESEA over the same period?

How many RESEA participants remain employed four quarters after the start of their UI claim in comparison to otherwise identical UI claimants who were not selected for RESEA over the same period?

Note that the evaluation must use a design that can qualify for a High or Moderate rating from CLEAR, based on standards set forth in the CLEAR Causal Evidence Guidelines, Version 2.1. Those guidelines are found here: [https://clear.dol.gov/sites/default/files/CLEAR_EvidenceGuidelines_V2.1.pdf](https://clear.dol.gov/sites/default/files/CLEAR_EvidenceGuidelines_V2.1.pdf). The study must also be powered to be able to detect impacts with what UIPL 1-20 describes as “strong statistical confidence” (p<.05).

**The evaluator should also explore the following research questions:**

Do employment outcomes vary based on the type and intensity of reemployment services claimants receive?

What reemployment services do claimants find to be most and least helpful?

How does program service delivery and operations vary across the state?

Are there any best practices for RESEA service delivery?

**Tasks:**

Review RESEA Program documents and interview Program staff in order to become familiar with the Program.

Design, develop, plan, and conduct the Evaluation.

Acquire IRB review and approval to conduct the study.

The Evaluation will utilize a treatment group and a control group.

Complete a statistical power analysis.

Provide an evaluation overview to MassHire Career Center staff.

Provide an estimated launch date.

Meet on a bi-weekly basis as needed with the RESEA team to discuss evaluation methodologies, implementation approach, timelines, data collection and analysis, implementation problems and resolutions, and other issues as they arise.
Provide monthly, quarterly, and annual progress reports in addition to monthly expenditure reports required by the Procurement and Contracts Department. Reports will discuss activities, patterns, progress, challenges, and significant findings. Additionally, reports shall briefly outline the next steps and any deviations from the planned activities. Reports will be shared with Senior Management.

The below budget must be completed. Please include bios of staff who will work on the Evaluation and resumes for key personnel.

The final evaluation report must be provided to the DUA and Masshire DCS at the end of the study, along with all data. An explanation of each variable and variable values should also be provided in addition to formulas and procedures used.

Bidders who propose alternative approaches and/or tasks must provide justification.

**Estimated Timeline:**
- Evaluation Design Plan Draft – June 2021
- Final Evaluation Design Plan - July 2021
- IRB Paperwork and Approval – July 2021
- Begin Evaluation – July 2021
- Kick off meeting with Career Center staff – July 2021
- Ongoing Bi-weekly meetings
- Ongoing progress and expenditure report
- Outline for Final Evaluation Report
- Draft for Final Evaluation Report
- Final Evaluation Report – 3 years from the launch date

If the bidder thinks that a different timeline would be required, please provide reasoning for the timeline. The Awarded Vendor must bid and receive an award on the replacement Statewide Contract for PRF61 but will not need to rebid on this Contract. If the Awarded Vendor is not awarded on the replacement Statewide Contract for PRF61, a waiver shall be requested from OSD to continue this Contract.

For Continuation ONLY: □ Scope of Services amended  □ No Change to Scope of Services

**Fixed Price Project:** Choose One
□ Budget attached for duration less than or equal to 12 months
□ Budget attached for duration greater than 12 months per fiscal year

A line item budget which must justify the rate with **deliverables and milestones for the entire duration** must be attached. Expenditures must be made in accordance with the approved budget for this engagement and the terms and conditions of the procuring agency’s RFR and contract. Payments will be made upon the submission of invoices that are complete and that include appropriate documentation in accordance with the terms of the service scope and governing contract. If travel reimbursement is allowed, the details must be outlined in the budget.
