Introduction

There are two primary information collection requests (ICRs) that define the performance reporting requirements for DOL workforce programs that report in the Workforce Integrated Performance System (WIPS). These two ICRs are approved under OMB Control nos. 1205-0526 and 1205-0521, and are referred to here as the “Joint ICR” (OMB Control no. 1205-0526) and the “DOL-only ICR” (OMB Control no. 1205-0521). Each document approved under these ICRs is summarized below, and there is also a hyperlink to the webpage where the documents can be found.
