

# WIOA QUICK START ACTION PLANNERS

## Are You Ready To Implement WIOA?

The Workforce Innovation and Opportunity Act (WIOA) will transform the public workforce system. Whether you work at the state or local level, WIOA will introduce changes in how you deliver services to job seekers and businesses.

## How do you know if you are ready to implement these changes?

### Do you have 20 minutes?

Our assessment tools — the Quick Start Action Planners (QSAP) — will help you identify your workforce system's strengths and weaknesses and connect and help you prepare to implement key elements of WIOA. Each QSAP will take only about 20 minutes to complete.

### Is this tool for me?

Yes! There is something for everyone on our [WIOA Action Planner](#) page. State and local leaders, working with their partners, can use the assessment tools to access resources and develop action plans to help prepare you to implement WIOA.

### But, is it confidential?

Yes! No login information is required. Answers to assessment questions are not saved or collected by the U.S. Department of Labor — this ensures your anonymity.

### What topics do the assessments cover?

- Partnerships
- State Leadership and Governance
- Local Leadership and Governance
- One-Stop Center Service Design
- Youth Service Strategies

Check the [WIOA Action Planner](#) page regularly to see what is available.

## 7 Ways WIOA QSAPs can help you

1. Prepare to implement WIOA
2. Identify strengths and weaknesses
3. Discuss priorities for change for your workforce system
4. Facilitate team and partner discussions
5. Connect to technical assistance resources
6. Develop an Action Plan
7. Revisit QSAP to assess progress along the way
