

Executive Summary

Listening Session- Strengthening TA with DOL YouthBuild Grantees

12/4/2018

Moderator: Jenn Smith

Speaker(s): Consuela Greene, James Hills

The DOL YouthBuild Technical Assistance (TA) Collaborative is focused on strengthening DOL YouthBuild grantee programs via a variety of TA vehicles, including training events, on site TA, webinars, the MIS Help Desk and the YouthBuild Community of Practice. Recently, YouthBuild USA asked DOL YouthBuild grantees to share information on their technical assistance needs. During this webinar, we will highlight the information shared by grantees. Participants had the opportunity to engage in an open discussion of current TA priorities with the presenters and their colleagues to share reactions, provide feedback, and identify solutions to address common TA needs.

Run of Show

Today's Objectives	:54
TA Services Support DOL YouthBuild Grantees	4:22
