

# Executive Summary

## TAA Final Rule: Quality Petition Filing for Trade Adjustment Assistance (TAA) Program

Date: 11/09/2020

Moderator: [Susan Worden](#)

Speaker(s): [Thor Hong](#) and Amy Chen

*This session provides practical tips for how to complete the new TAA petition form by exploring how a petition is read through the eyes of a DOL/OTAA investigator. Following these tips makes the front end of the investigation process run more efficiently, which cuts down on overall case processing time. A high quality petition filing clearly identifies the group of workers that is to be investigated for group TAA eligibility.*

*Other topics include reinforcement of policy provided in Subparts B and H of the 2020 TAA Final Rule (20 CFR 618).*

*The session features 30-40 minutes of live Q&A, broken into three segments, on various topics related to petition filing and TAA investigations.*

## Run of Show

Objectives	1:13
Filing Quality Petitions topic intro	2:42
Elements of High Quality Petitions	7:41
• <i>Where the Workers Work</i>	10:20
• <i>Which Workers</i>	14:14
