The Bipartisan Budget Act of 2018, Public Law 115-123, was enacted on February 9, 2018 and included amendments to the Social Security Act that created a permanent authorization for the RESEA program. The permanently authorized RESEA program provides for a phased implementation of new program requirements over several years.

This webinar is intended to support states with their ongoing implementation of the permanent RESEA program during Fiscal Year (FY) 2021 by providing an overview of:

- Changes to RESEA service-delivery resulting from COVID-19;
- Transition to formula funding and resulting funding allotments;
- General program requirements for FY 2021;
- State plan submission process and deadlines; and
- Available and forthcoming technical assistance, tools and program resources.

This webinar is presented by Jim Garner, Michelle Beebe and Lawrence Burns from the Office of Unemployment Insurance; and Chanta Ferrell from the Office of Grant Management.
