TAA PIRL Revisions 2021

09/07/2021

Moderator: Robert Hoekstra

Speaker: Robert Hoekstra

The Trade Adjustment Assistance (TAA) Program relies on participant reporting through the Participant Individual Record Layout (PIRL). In June 2021, a new version of the PIRL was approved for implementation in TAA reporting on 7/1/2022. This webinar discusses what changes were made in the PIRL, the implications of the changes, and answers to common questions. Changes include added and deleted required elements, language changes, tracking online/virtual services, changes to how multiple petitions are tracked, and other small changes to shared elements.
